

## **Dr. Peter Bongiorno Named Physician of the Year**

**October 2008**

(New York City) At the annual New York Association of Naturopathic Physicians (NYANP) conference held in New York City, Dr. Peter was voted by his fellow New York naturopathic colleagues for this year's honor.

He was presented with the award by NYANP President, Dr. Donielle Wilson, who announced “your amazing work as a naturopathic doctor and generous contributions to the NYANP as a board member have made a difference for many people who would not have had access to naturopathic care otherwise. You are inspiring and deserve praise.”
